NEW HAMPSHIRE STATE DEPARTMENT OF HEALTH

December 12, 1958.

To the Citizens of the Town of Errol:

During the year 1958, 10 visits were made to the town. Several children attended the Salk Vaccine and Triple Toxoid Immunization clinics held in Colebrook and sponsored by the New Hampshire State Department of Health. It is hoped that a Well Child Conference can be held in Errol in the Spring of 1959.

It has been a pleasure to work with the Citizens of Errol and at this time I would like to thank them for their co-operation, and at any time I hope they will feel free to call on me if I can be of any service to them.

Respectfully submitted,

ELEANOR KENNEY, R.N.,
Public Health Nurse, Coos County,
New Hampshire State Dept. of Health.

REPORT OF
THE SUPERINTENDENT OF SCHOOLS

1958-59

I herewith submit my annual report as Superintendent of Schools in Errol. Statistical and financial data is compiled to the end of the school year in June and a proposed budget for the coming year is included. Please note, also, the Grade Placement Chart which gives the enrollment for the current year. This shows that the number of young people in school is less than last year. Some of this loss is accounted for by the fact that not so many tuition students are attending our schools from Millsfield and Wentworth Location.

You will remember that \$6,000.00 was added to the appropriation at the last March meeting. This has made possible the employment of an additional teacher at high school level and the offering of more and different subjects. Because of this enlarged curriculum we understand our high school is fully approved by the state board for tuition purposes. Moreover, our young people are being offered at the local level at least all of the subjects which they would be required to take in a larger high school and some of the elective classes. This means better preparation for those going to some other school for their 11th and 12th year work.

While these are the usual problems of administration and the finding of satisfactory teachers we are assured by the state board representatives that we shall have continued approval so long as the present status is maintained or improved.

It is well to note that at present there is no prospect for immediate improvement in the number of tuition students. Although the attendance of these young people constitute some revenue our primary interest so far as the schools are concerned is that the added number means larger classes, more competition and, hence, a greater school interest.

Much of the credit for having an approved high school and a better offering of subject matter for the young people goes to the members of the school board. They are to be complimented for the interest and effective endeavor they have contributed in their positions.

I am happy to report that it is my considered opinion that there has been a marked improvement in the program of studies and the general well being of Errol schools.

Respectfully submitted,

HOWARD D. FOWLIE,
Superintendent of Schools.
